

CMMC Assessment

PLATFORM FEATURE UPDATE

Adlumin users have access to a our CMMC Assessment feature, which streamlines preparation for the U.S. DoD's **Cybersecurity Maturity Model Certification (CMMC)**.

The assessment tool gauges your progress towards achieving the CMMC certification level appropriate for your organization. Core functionality includes:

- A dashboard that provides a high-level overview of your compliance level across all 17 CMMC Domains.
- Visualizations to easily identify gaps in your organization's Process and Practice maturity level attainment.
- The ability to note and manage tasks required to improve your organization's cybersecurity maturity.
- On-demand reports providing a snapshot of your current compliance level.

The CMMC Assessment feature can be found under the **Reports** tab in the menu bar.
