Automated Reporting for Auditors and Compliance

Understand Risk with 1-Button Click

Make Decisions In Minutes, Not Days

Financial Compliance Audit Reports Included

Know Everything About an Account with 1-Click

90-Days of Research Included with SIEM

Designed by Financial Institutions for Financial Institutions

One-Touch Compliance allows you to download reports, in seconds, and hand them directly to financial auditors.

Federal Financial Institutions Examination Council (FFIEC) required data reports are included in our platform. We also provide Inherent Risk Profile and Cybersecurity Scores—exclusive to Adlumin!

Our proprietary **Darknet Exposure Module** searches for our clients leaked or stolen accounts on the deep and dark web, 24/7.

Most SIEMs require financial institutions to write the rules for what their SIEM will search. Using AI and machine learning, **Adlumin's SIEM writes its own rules.**
