

/ KRISTINA MARTINEZ

Full Stack Developer at Adlumin Inc.

Kristina Martinez is a Full Stack Developer at Adlumin Inc., a cybersecurity technology firm that focuses on revolutionizing how corporate institutions secure sensitive data and intellectual property while achieving their compliance objectives through its security and compliance automation platform. Martinez is responsible for creating new features in the application, building tools that help clients meet their demands, and continuously working on improvements and enhancements.

Before joining the Adlumin team, Martinez worked in IT support for a security company and coordinated training for scientists and other specialists in the Bureau of Land Management.

When she is not brainstorming new application features, you can find her reading fiction novels, playing trivia, and cooking new recipes.
