

## / ZACHARY SWARTZ

Data Scientist at Adlumin Inc.

Zachary Swartz is a Data Scientist at Adlumin Inc., a cybersecurity technology firm that focuses on revolutionizing how corporate institutions secure sensitive data and intellectual property while achieving their compliance objectives through its security and compliance automation platform. Swartz uses machine learning to develop algorithms that detect anomalous/malicious behavior on client networks.

Before Adlumin, Swartz spent two years doing AL/ML research and development for the geospatial and intelligence communities, including computer vision for object-tracking and predictive maintenance for 5th generation military aircraft. He has also worked at a cybersecurity startup developing anomaly detection models.

You can find him playing the guitar, VR, and building deep learning models in the context of music/speech in his free time.
