

## / MASSIE HUSSAINI

Director of Application Development at Adlumin Inc.

Massie Hussaini is the Director of Application Development at Adlumin, a cybersecurity technology firm that focuses on revolutionizing how corporate institutions secure sensitive data and intellectual property while achieving their compliance objectives through its security and compliance automation platform. He specializes in full-stack development and application DevSecOps pipeline management for robust system designs and features.

Before his time at Adlumin, Hussaini worked with government and private sector clients, building end-to-end SaaS offerings on all cloud platforms. Additionally, he has worked in the IoT sector, helping build system protocols for monitoring devices and satellite data globally and data science models for aggregate functionality.

Hussaini holds an MBA with a focus on software implementation, a graduate certificate in data analytics, certifications in python development, and AWS certifications: Cloud Certified Practitioner and Solutions Architect Associate. He also teaches courses at the university level in Business intelligence and data analytics along with automation with programming.
